

1

2 FIGURE S4. Scatter plots of GPA-aligned landmarks for specimens of *L. bantingensis* (n=31). Mean GPA coordinates of each landmark are
 3 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

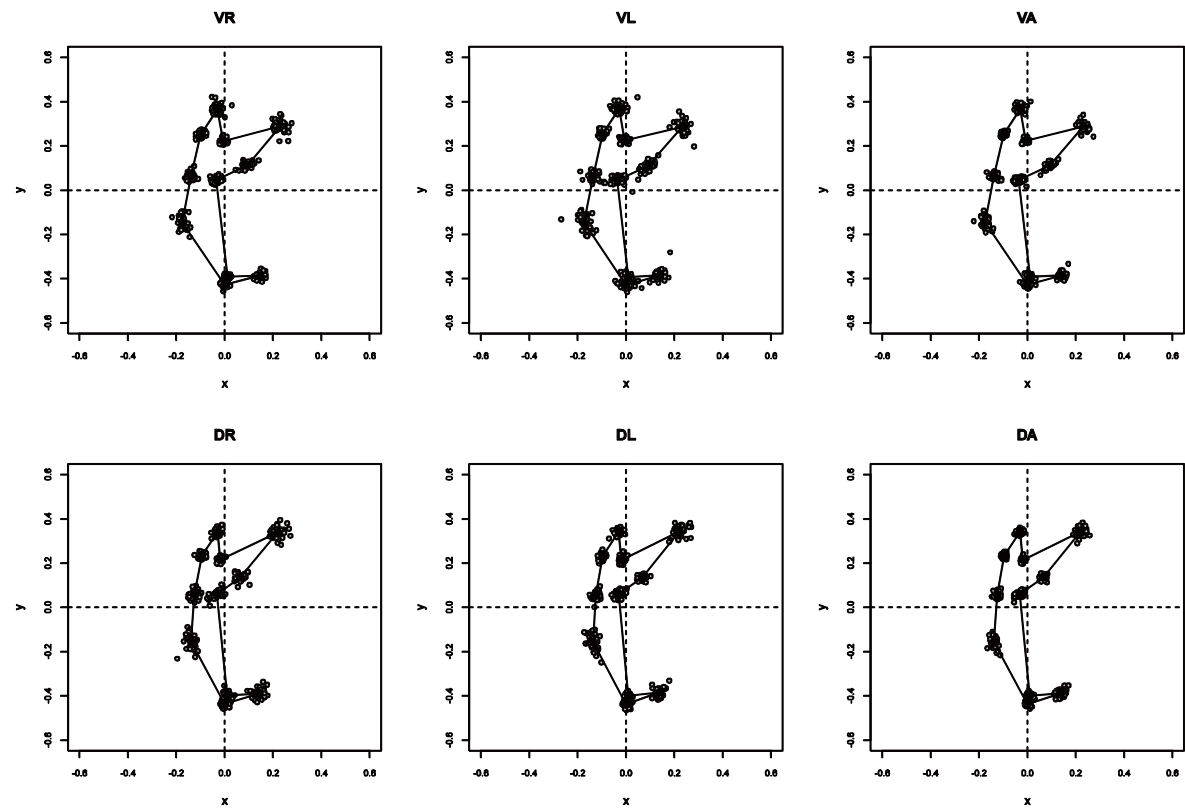

4

5 FIGURE S5. Scatter plots of GPA-aligned landmarks for specimens of *L. belanaki* (n=50). Mean GPA coordinates of each landmark are
 6 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

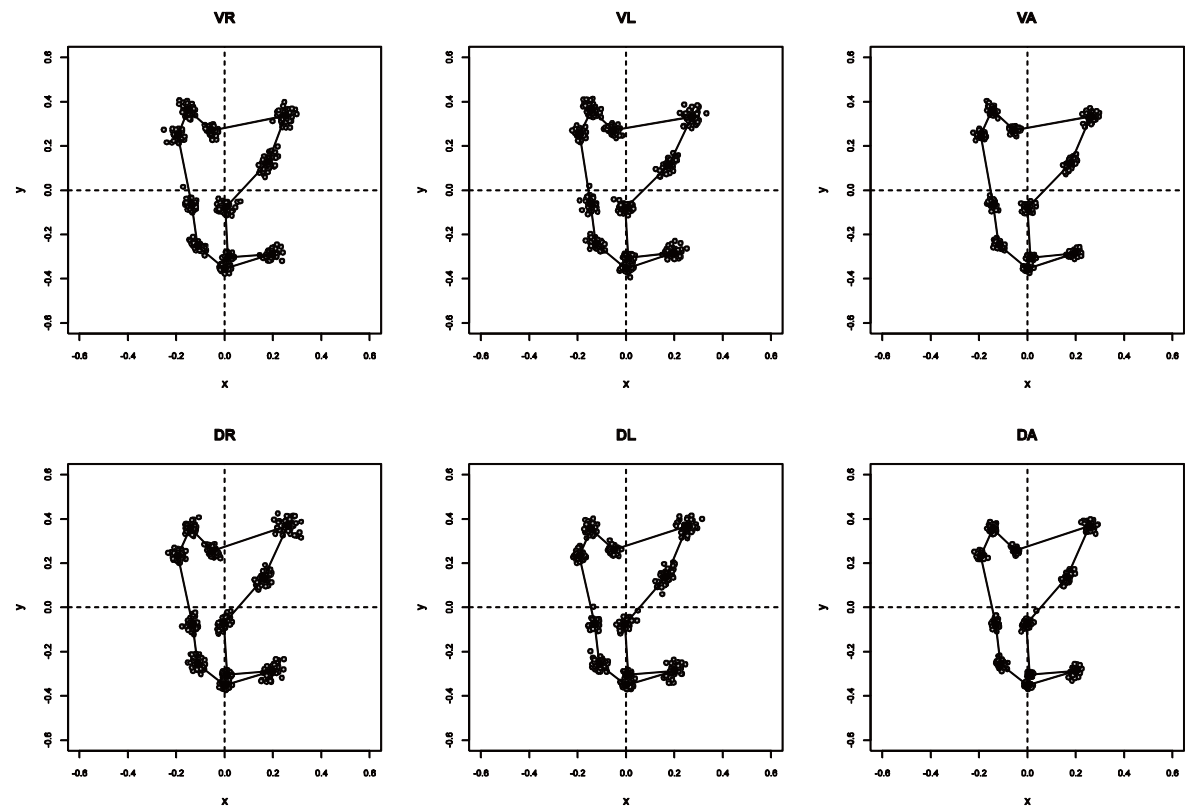

7

8 FIGURE S6. Scatter plots of GPA-aligned landmarks for specimens of *L. careyensis* (n=10). Mean GPA coordinates of each landmark are
 9 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

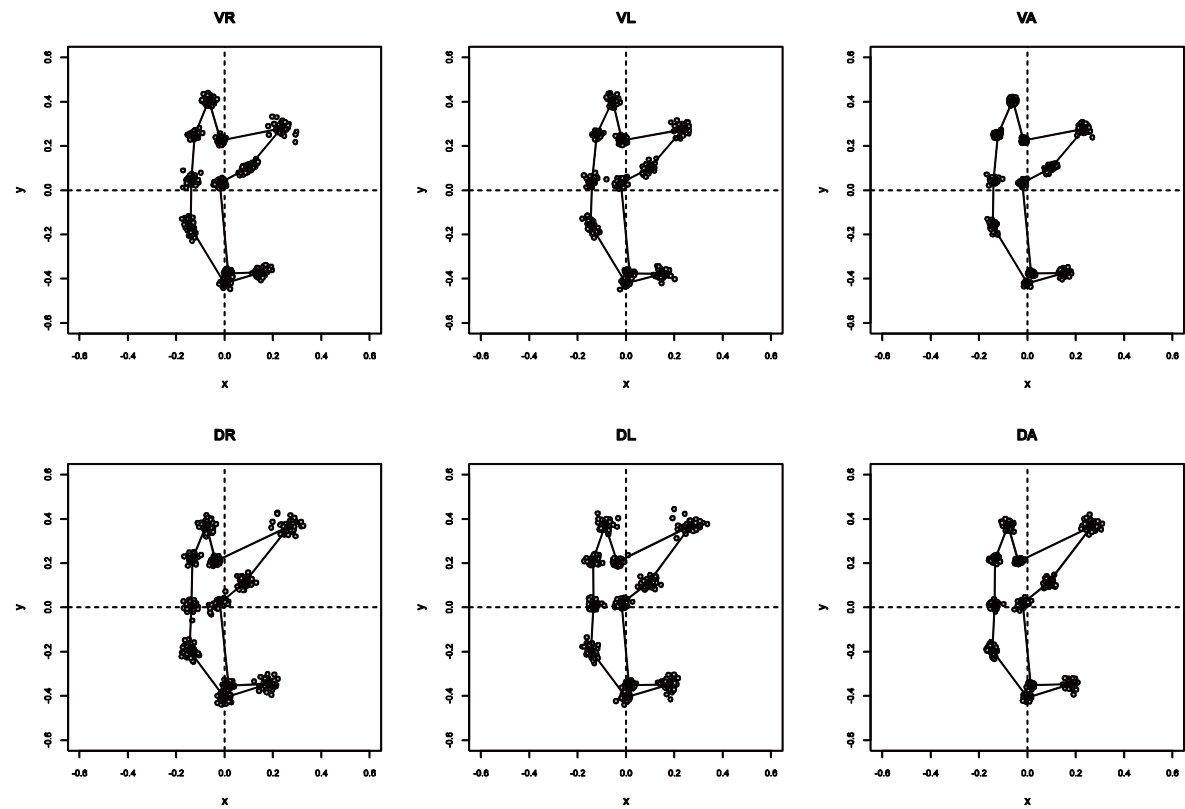

10

11 FIGURE S7. Scatter plots of GPA-aligned landmarks for specimens of *L. chelatus* (n=50). Mean GPA coordinates of each landmark are
 12 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

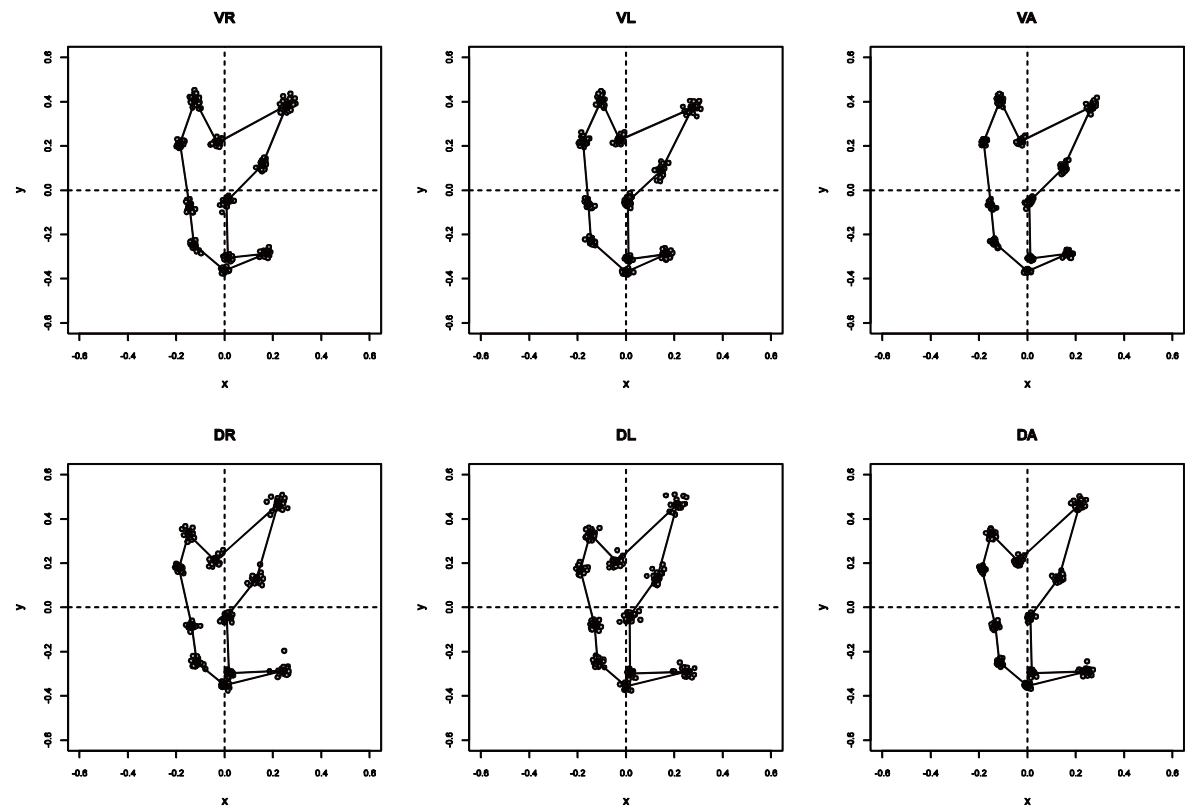

13

14 FIGURE S8. Scatter plots of GPA-aligned landmarks for specimens of *L. fenestrum* (n=50). Mean GPA coordinates of each landmark are
 15 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

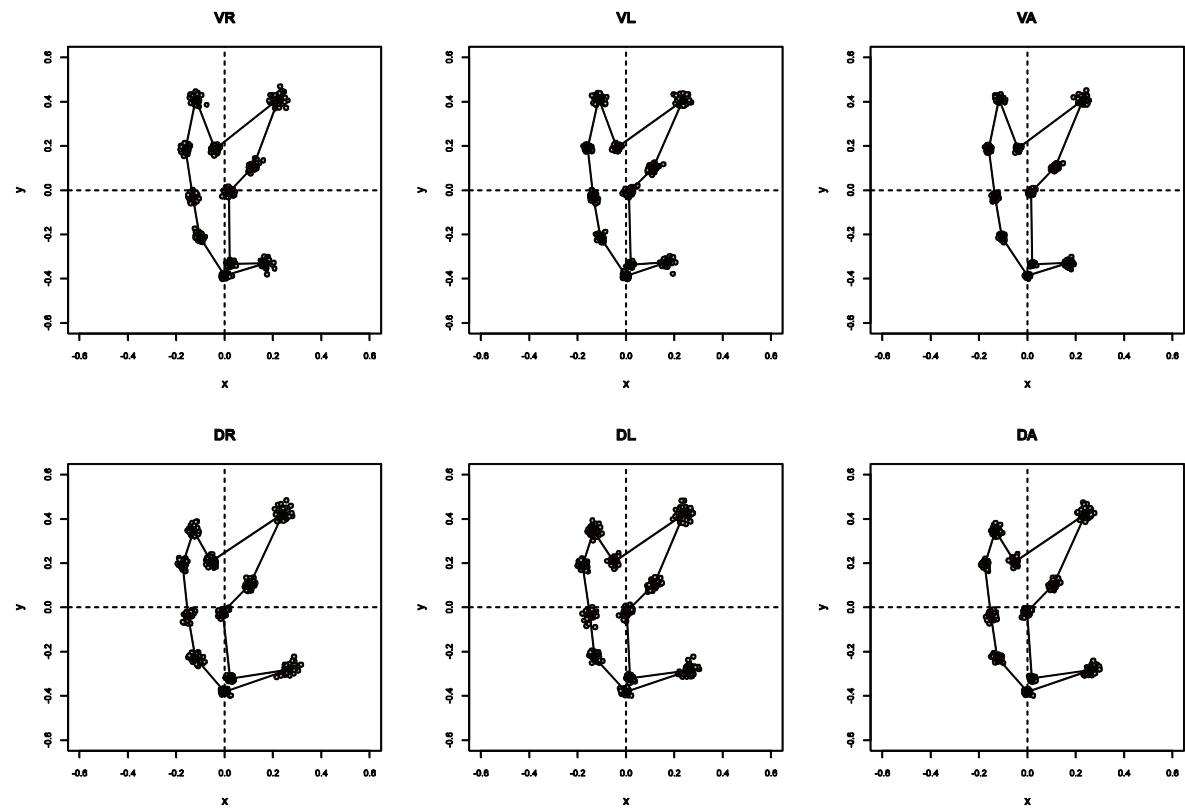

16

17 FIGURE S9. Scatter plots of GPA-aligned landmarks for specimens of *L. funnelus* (n=50). Mean GPA coordinates of each landmark are
 18 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

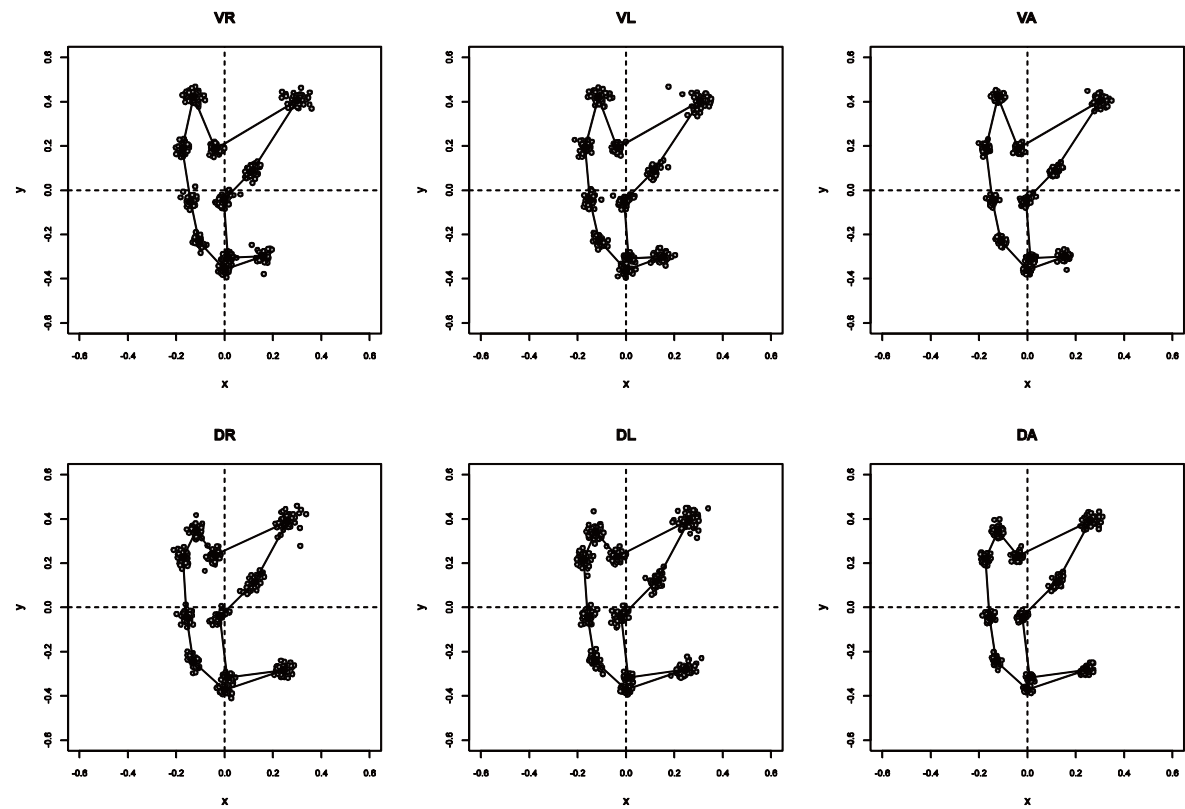

19

20 FIGURE S10. Scatter plots of GPA-aligned landmarks for specimens of *L. grandis* (n=22). Mean GPA coordinates of each landmark are
 21 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

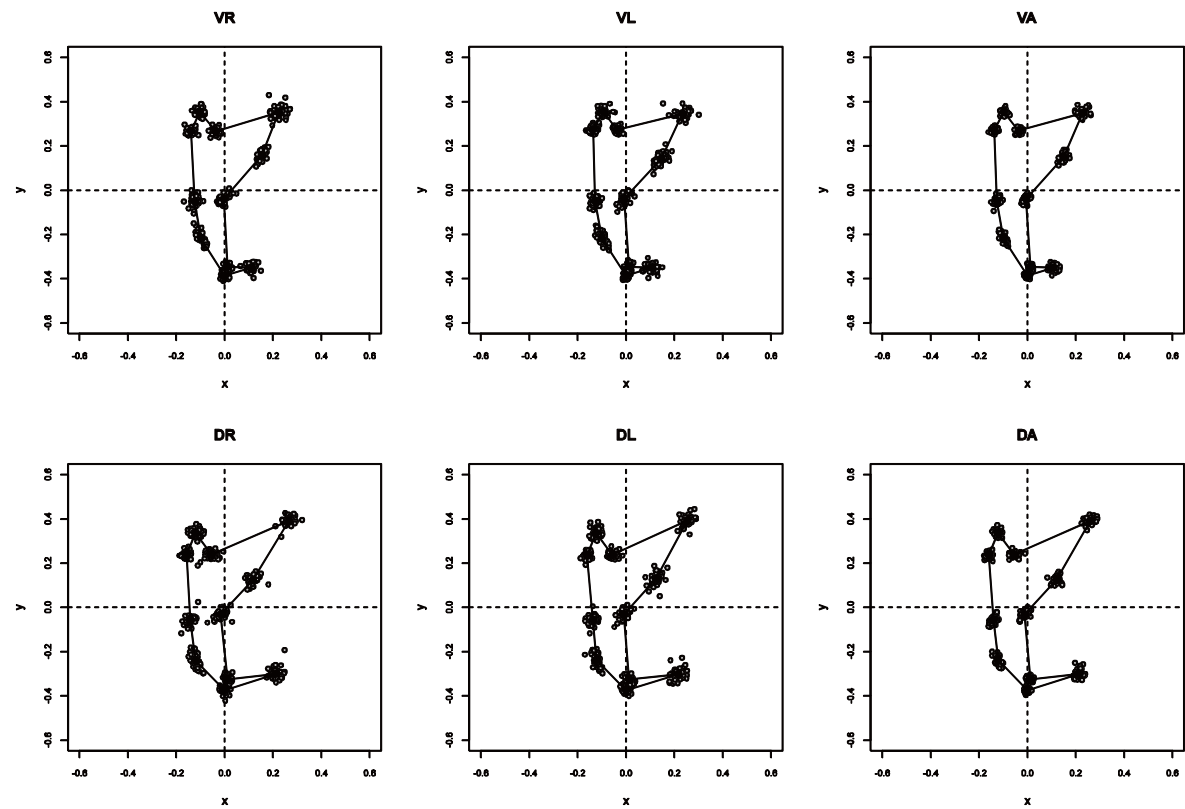

22

23 FIGURE S11. Scatter plots of GPA-aligned landmarks for specimens of *L. johorensis* (n=50). Mean GPA coordinates of each landmark are
 24 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

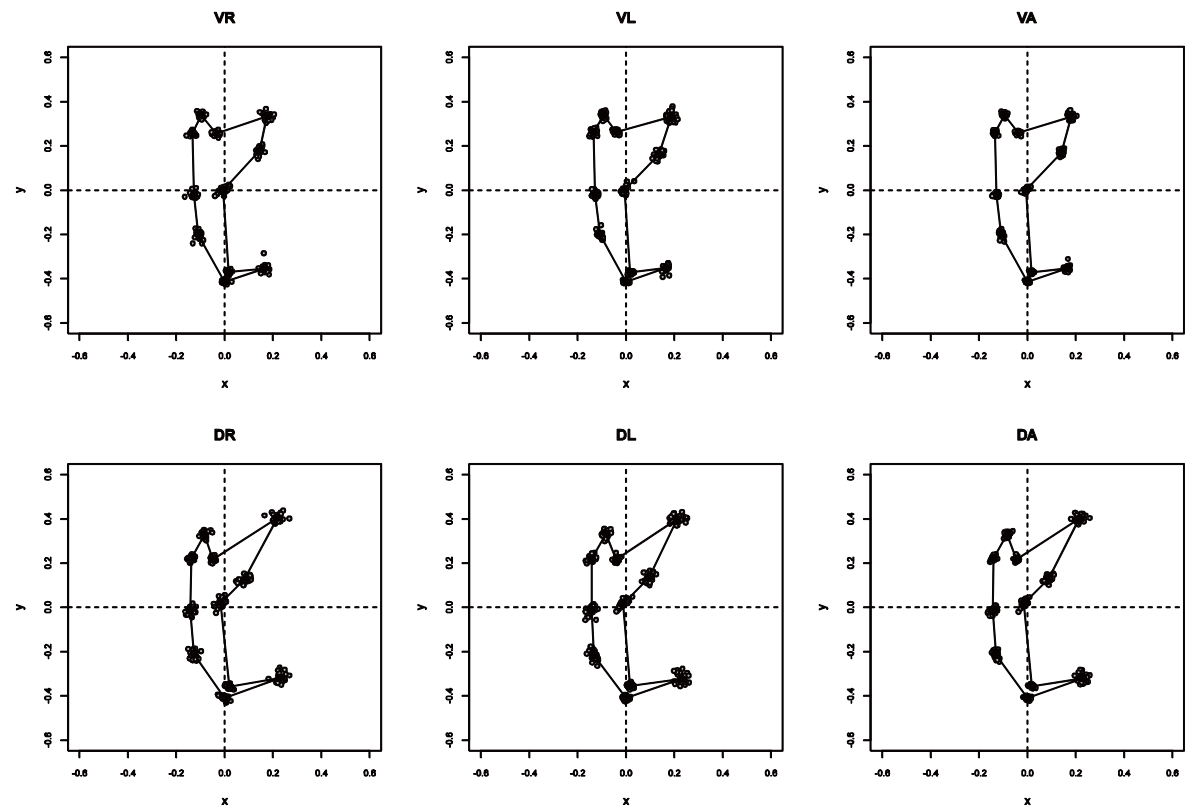

25

26 FIGURE S12. Scatter plots of GPA-aligned landmarks for specimens of *L. kedahensis* (n=50). Mean GPA coordinates of each landmark are
 27 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

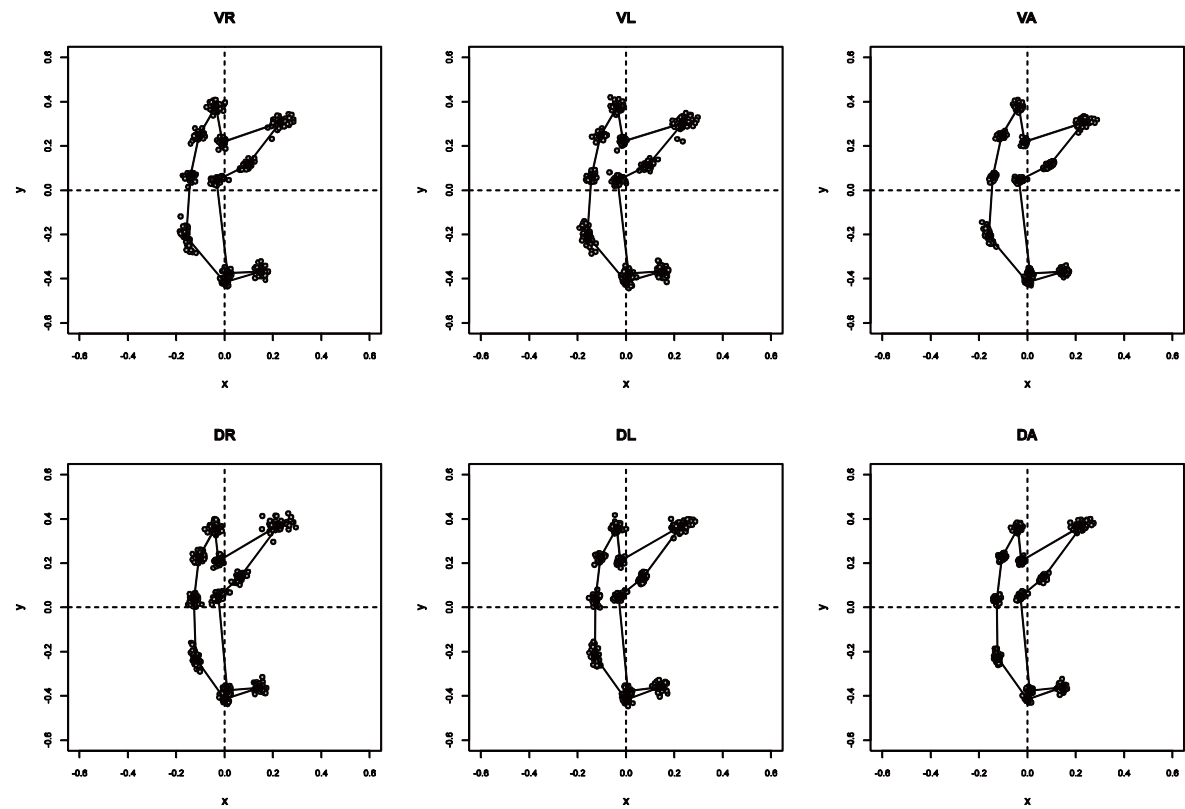

28

29 FIGURE S13. Scatter plots of GPA-aligned landmarks for specimens of *L. kederai* (n=43). Mean GPA coordinates of each landmark are
 30 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

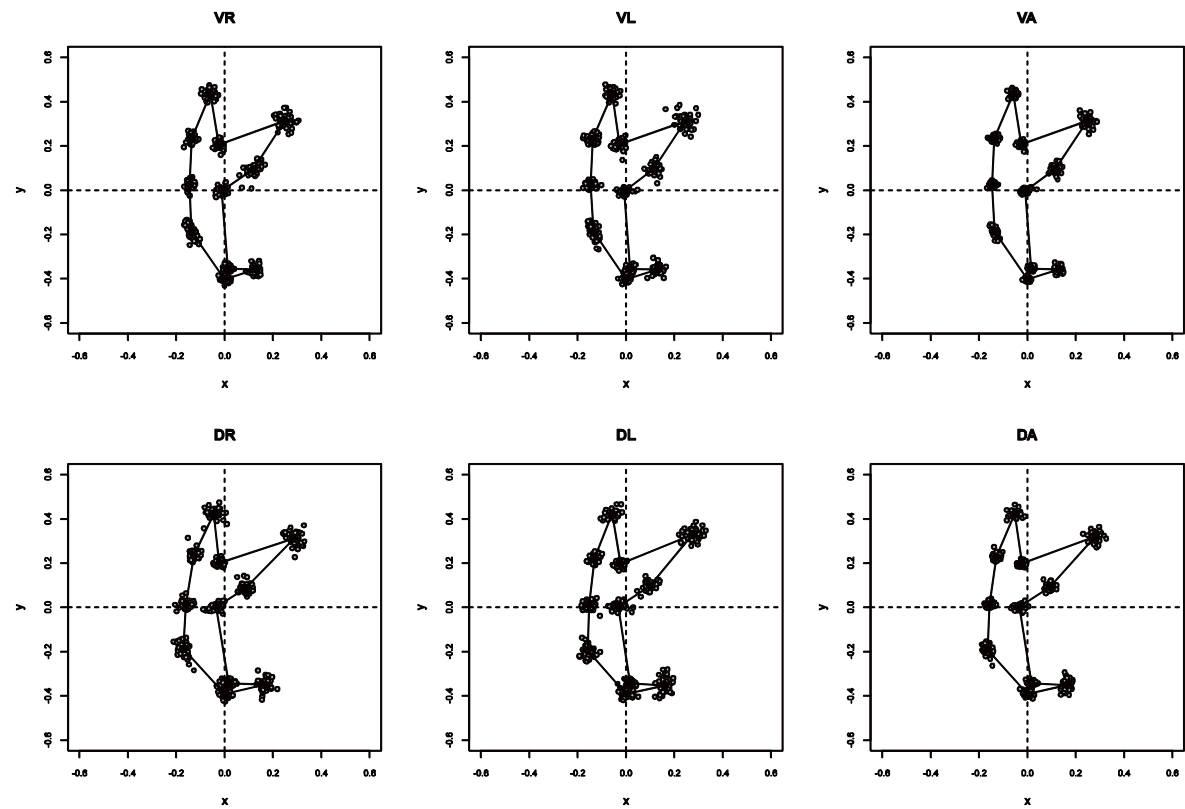

31

32 FIGURE S14. Scatter plots of GPA-aligned landmarks for specimens of *L. liewi* (n=32). Mean GPA coordinates of each landmark are indicated
 33 by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

34

35 FIGURE S15. Scatter plots of GPA-aligned landmarks for specimens of *L. navjotsodhii* (n=50). Mean GPA coordinates of each landmark are
 36 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).

37

38 FIGURE S16. Scatter plots of GPA-aligned landmarks for specimens of *L. parvicopulatrix* (n=49). Mean GPA coordinates of each landmark are
 39 indicated by large solid circles. Abbreviations: ventral right (VR); ventral left (VL); dorsal right (DR); dorsal left (DL).
