A horizontal bar chart illustrating the annual number of publications from 1970 to 2023. The vertical axis (y-axis) represents the number of publications, ranging from 0 to 1000 in increments of 100. The horizontal axis (x-axis) represents the year. The chart shows a long period of low publication counts (mostly below 100) from 1970 to approximately 2000. Starting around 2000, there is a sharp and consistent increase in the number of publications per year, reaching a peak of nearly 1000 publications in 2023.
