

The raw data from the C3s, gpCTD, AIS, MOSE, PhytoFlash, and weather station are archived at both the NOAA ERDDAP site

(<http://coastwatch.pfeg.noaa.gov/erddap/search/index.html?page=1&itemsPerPage=1000&searchFor=liquidr>) and BCO-DMO (<http://www.bco-dmo.org/project/505589>). The BCO-DMO site also contains the raw holograms, the biovolume data, as well as the *Hemiaulus* and *Rhizosolenia* abundance data.
